## **Certificate in relation to air transportation of Mobility Aids with Lithium Batteries by passengers with walking disabilities**

We hereby certify that the our product

### **SIROCCO POWER 12, CITY14 ET POWER 16**

including the lithium ion battery model 48Volts 5.8Ah Number 00197342 fulfil the requirements of

### **IATA chapter 2.3.2.4**

and therefore the system may be carried as checked baggage without restriction.

**Only the battery has to be removed for transportation** (protected from unintentionally switching on, damage and from short circuit by other luggage e.g. by placing the battery in a protective pouch) and **carried in the passenger cabin.**

The rated energy of the batterie is with 278.4 Wh **below** the IATA limit of **300 Wh.**

The pilot in command has to be informed about the location of the battery.

**We strongly recommend to contact the airline sufficiently in advance to request approval for transport.**

This certificate does not apply to damaged or defect batteries.

Due to the frequent amendments of the respective regulations, which partly occur on an annual basis this certificate is valid until 31st December 2019.

Châtillon le Duc le, 25 Février 2021.
